

Declaration regarding

**Substances Restricted and Monitored Under
REACH Regulation (EC) No 1907/2006**

Issue Date

1-Jul-26

3DXTECH[™]
Additive Manufacturing

904 36th Street SE, Grand Rapids, MI 49508, USA

Telephone: +1-616-214-7965

This declaration certifies that, per REACH Regulation (EC) No 1907/2006 and below published lists, to the best of the undersigned's knowledge, the included substances are never intentionally used in the manufacturing process and are not contained in any 3DXTech products, unless otherwise noted in the product's SDS/supplemental REACH compliance document.

**Substances of Very High Concern Candidate List (6 February, 2026)
REACH Annex XIV (Authorization List)
REACH Annex XVII (Restriction List)**

3DXTech discloses the above information based upon the data from our raw material suppliers or manufacturers. Due to the complexity of supply chain, storage, and transport of raw materials which are used in 3DXTechs products, trace-level impurities or non-intentionally added substances (NIAS) cannot be entirely excluded. Such NIAS would only be anticipated at trace levels, below that of 0.1% (w/w). 3DXTECH actively monitors regulatory updates and retains composition information on raw materials from suppliers.

A handwritten signature in black ink that reads "Rachel Rogers". The signature is fluid and cursive, with the first name "Rachel" and the last name "Rogers" clearly distinguishable.

**Rachel Rogers, Product Manager
3DXTech**

This document is for informational purposes only and does not constitute any warranty or legal binding in any manner whatsoever.

This declaration applies to 3DXTech products at point of leaving the production facility. It does not cover any substances added, or modifications and/or improper material processing further down the supply chain.
