Regulation Certificate

This certifies that the below mentioned substances are never intentionally used as additives in the manufacturing process, per the

ECHA REACH Annex XVII (Amendment 2024/2462 30 September 2024)

Substances not used in manufacturing/not contained in the above listed product
[above specified threshold limits]:

Substances Subject to Authorization (per REACH Annex XIV, 1 November 2023), Substances Subject to Restriction (per REACH Annex XVII, 20 September 2024), Substances on Very High Concern Candidate List (per REACH Annex XVII, 21 January 2025)

3DXTech discloses the above information based upon the data from our raw material suppliers or manufacturers. Note that routine raw material analysis, or analysis of 3DXTech Products for presence of the above listed substances is not a part of 3DXTech's quality control plan or product specifications requirements.

Rachel Minard, Product Manager
3DXTech

This document is for informational purposes only and does not constitute any warranty or legal binding in any manner whatsoever.

This declaration applies to the above product as it leaves the production facility. It does not cover any substances added, or modifications and/or improper material processing further down the supply chain.
