Regulation Certificate

This certifies that the below mentioned substances are never intentionally used as additives in the manufacturing process, per the

PFAS Reporting Under TSCA Section 8(a)(7), as amended by the National Defense Authorization Act of Fiscal Year 2020.

Substances not used in manufacturing/not contained in the above listed product:

Per- and Polyfluoroalkyl Substances (PFAS)

This declaration is made based upon the EPA definition of PFAS, which is:
"A chemical substance that contains at least one of the following three structures:
R-(CF₂)-CF(R')R", where both the CF₂ and CF moieties are saturated carbons.
R-CF₂OCF₂-R', where R and R' can either be F, O, or saturated carbons.
CF₃C(CF₃)R'R", where R' and R" can either be F or saturated carbons."

3DXTech discloses the above information based upon the data from our raw material suppliers or manufacturers. Note that routine raw material analysis, or analysis of 3DXTech Products for presence of the above listed substances is not a part of 3DXTech's quality control plan or product specifications requirements.

Rachel Minard, Product Manager
3DXTech

This document is for informational purposes only and does not constitute any warranty or legal binding in any manner whatsoever.

This declaration applies to the above product as it leaves the production facility. It does not cover any substances added, or modifications and/or improper material processing further down the supply chain.
